VISUALISATIE BA_VOS_V_N_xx

The main landscape plan illustrates a residential development along Voskenslaan. It features several building footprints, including a large central structure and smaller units along the street. Green spaces are delineated in various shades of green, with specific areas for grass, lawn, and dense planting. Numerous trees are shown, with some labeled as 'CANADAPOPULIER' and others as 'NIEUWE BOMEN'. Infrastructure elements like roads, sidewalks, and parking areas are marked. A large circular green area is labeled 'D120 CANADAPOPULIER'. The plan also shows existing and proposed landscaping, including a 'slangenbank' and a 'buitenklas'. The street 'VOSKENS LAAN' is prominent on the right side, with various plots and buildings numbered. A 'rijkschool' is located at the top right. The plan includes a scale bar and a north arrow.
