

The drawing is a detailed architectural cross-section of a residential building. It shows the following elements:

- Rooms:** Slaapkamer 1, Slaapkamer 2, Slaapkamer 3, Berging (Storage), Keuken (Kitchen), and Leefruimte (Living area).
- Roof Structure:** DAKOPBOUW (attic) with Zolderruimte (loft space). Details include dakpannen (tiles), isolatie (insulation), and gordingen (rafters).
- Floor Structure:** VLOEROPBOUW (floor construction) showing layers like OSB-3, roestplaat (steel plate), and vloerplafond (floor ceiling).
- Wall and Ceiling Details:** GEVELOBOUW (exterior wall construction) showing insulation, render, and plasterwork.
- Basement/Foundation:** Shows concrete walls, floor, and foundation details below ground level.
- Technical Annotations:** Numerous notes specify materials, dimensions, and construction requirements, such as "Nieuwe keramische tegels" (new ceramic tiles) or "Nieuw gevelbekleding zink staande naad" (new zinc cladding standing seam).
- Elevations:** Various height levels are indicated throughout the section, ranging from +0.00 to +8.85.
