

The architectural site plan illustrates a complex construction project. Key features include:

- Storage and Logistics:** Large areas for storage of materials and goods, including 'OPSLAGTANK + POMP-LOKAAL' and 'OPSLAG GRONDEN' (storage of earth/fill).
- Building Complex:** A central 'MAGAZIJN + SAN. GEBOUW' (warehouse and sanitary building) and a 'KANTOOR' (office) area.
- Canal and Water Management:** The 'KANAAL GENT - TERNEUZEN' is shown with various water management structures, including 'OVERKAPPING' (overhang) and 'BESTAAND LAGUNINGSVELD' (existing detention basin).
- Infrastructure:** A 'WORKSHOP (+LUIFEL)' and 'WC' (toilet) are located near the bottom of the plan.
- Dimensions and Areas:** Numerous dimensions and area calculations are provided throughout the plan, such as 'COMPARTIMENT 1 OPSLAG GRONDEN 32.118m²' and 'BESTAAND LAGUNINGSVELD 7.700m²'.
- Material Specifications:** Specific materials and construction details are noted, such as 'HDPE + zandbed' (HDPE + sand bed) and 'ONDOORLATENDE CONTOURGRACHT' (permeable contour ditch).
